Hello

I'm Jordan Nwabuike, A Software Engineer.

Kairaba Avenue, The Gambia.
(+220) 710-3716, 517-6584
Email; jordannwabuike@gmail.com | My LinkedIn; www.linkedin.com/in/jordan-c-nwabuike
GitHub Repository: https://github.com/Jordanlopez546
My Portfolio Website: https://jordanlopez546.github.io/Jordan/

Skills

- Programming Languages;   Python, Java, JavaScript (TypeScript), C#, Dart

- Databases;   MongoDB, MySQL, PostgreSQL, MS SQL Server

- Web;   HTML/CSS, React.js, Next.js

- Mobile;   React Native, Flutter

- Backend Technologies;   Django, Node.js & Express.js, Nest.js, Firebase

- Tools;   gRPC, REST, Agenda, Prisma, Jest, Microservices

- Version Control;   Git, GitHub, Bit Bucket

Experience

APRIL 2023 - PRESENT

StevJay Innovations. The Gambia – *Senior Software Engineer*

- I built an AI Career Counsellor application that suggests career paths and interview tips based on user profile details, like skills, experiences and career interests. It also has a chatting interface to converse with an AI. It is a mobile app that was majorly built with Flutter, and Express.js

- I built a secure password manager app for mobile and web platforms, enabling users to store and manage credentials with robust encryption. The mobile version was built with TypeScript and React Native, the web version was built with Next.js, whilst the backend is powered by Node.js, Express.js and MongoDB.
- Explore the web version at https://shielded-hub-web.vercel.app/

- I developed a Web App for a Student Portal using HTML, CSS, Bootstrap, Python and Django. The web app allows students to easily register for courses from a list of options. I also added search functionality to make it convenient for students to find courses. I implemented student authentication and authorization features.

JULY 2024 - PRESENT

BitCoin Gambia, The Gambia – *Software Engineer*

- Collaborating on the development and maintenance of Backend infrastructure and services.

- Conducting code reviews and providing feedback to ensure code quality and best practices among team members.

- Designing and implementing RESTful APIs for seamless integration between frontend and backend services.

- Integrating third-party services and APIs to extend the functionality and capabilities of the application.

OCTOBER 2023 - MARCH 2023

Insist Global Ltd. The Gambia – *Software Engineer Intern*

- Collaborated on Next.js and TypeScript with other senior software engineers in real world projects.
- Worked on some parts of the admin dashboard of the Afrijula app (An amazing e-commerce application) that was built with Next.js and TypeScript.
- Followed the SDLC principles thereby crafting a web weather app using Next.js and TypeScript.

Education

SEPTEMBER 2022 - SEPTEMBER 2026

University of The Gambia, The Gambia. – *Bachelor of Science in Computer Science*

Relevant Coursework: Data Structures & Algorithms, Web Development, Database Systems, Cloud Computing, Artificial Intelligence, Advanced Application Development and Intelligent Systems.
